

Application Details of World IoT Awards 2024 and Global Demonstration Enterprises Prize of Intelligently Interconnected Digital Economy

I. Selection Time

From July 31, 2024 to September 30, 2024 (Beijing Time), registration applications will no longer be accepted after the deadline.

II. Selection Object

1. IoT and digital economy research institutions in various countries and regions;
2. IoT enterprises (digital technology companies) related to digital economy;
3. Scientific and technological achievements, software and hardware products, application service platforms, Internet of Things systems related to IoT digital economy;
4. IoT and digital economy standard organizations, IoT business associations or societies;
5. Experts, scholars, scientific research and management talents in the field of IoT, and individuals who have made major contributions to the world of Internet of Things.

III. Selection Scope

Companies, as well as solutions, software and hardware products and technologies in IoT-based digital industry (including intelligent manufacturing), health care, agriculture, energy, logistics, cultural tourism, smart cities(communities), public government, artificial intelligence, aerospace, military and civilian technology, ecological and environmental protection, transportation and vehicle federation, finance, security and safety, smart life (including wearable devices, smart homes), modern service industry and other industry fields.

IV. Selection Method

The application is made by individuals, enterprises or institutions themselves, or through recommendations from national and local governments, institutions, chambers of commerce or associations, and recommendations from organizations of the World Internet of Things Convention.

V. Type of Award

The World IoT Awards is divided into categories of “enterprise” (Demonstration Enterprises Prize, Leading Enterprise Award, Outstanding Enterprise Award, and Excellent Enterprise Award), “person” (Special Contribution Award, Leader of the Year Award, and Outstanding Person of the Year Award) and “project” (Project Award -- technology, product, development and application, service, industry promotion, etc.).

VI. Application materials

1. If the application is from institutions/ enterprises/ individuals, please fill in the “Application Form for World IoT Awards 2024”, sign and seal (for international companies, the person in charge shall sign and confirm), and send the completed application form and the scanned electronic copy to the email awards@wiotc.org;
2. The applied institutions, enterprises or individuals must provide introduction materials for IoT products, solutions, and application services (including but not limited to image materials, papers, physical products or items, solution materials, technologies and achievements, successful experience or suggestions, speech display and annual output value of application services, etc.), intellectual property information, qualification honor information, and related supporting certification information.

VII. Application Registration Fees

All companies, institutions and individuals registering and applying for WIOTA are required to pay the following fees in full when submitting their application materials:

1. The registration fee of USD 300 or RMB 1,500 per award (the registration fee is non-refundable; if you apply for more than one award, it will be calculated on an accumulative basis).
2. The total conference service cost is USD 1400 or 7000 RMB, covering the fees of customized trophy and certificate for each award, media coverage, company logo display, and conference attendance for one representative (this fee is refundable if the applicant does not win the award).

VIII. Selection Process

Registration for application → eligibility review → preliminary evaluation → announcement → final evaluation → awarding

IX. Announcement

The news about awards will be announced on the official website of the organization World Internet of Things Convention (www.wiotc.org).

X. Time of Awarding and Type of Prize

All awards will be awarded at the World Internet of Things Convention 2024 (WIOTC 2024) with trophies / certificates.

XI. Preferential Treatment for Winners

1. All registered companies and institutions can publicize their introduction, products, technologies, and solutions on the official website of WIOTC for free;

2. Information of award-winning companies, institutions and projects may be announced on the official website of WIOTC and its WeChat public platform, and provided with project or product roadshow opportunities at the conference;
3. Award-winning companies, institutions and individuals can have the priority to obtain the member qualification of joining related industrial commissions;
4. Award-winning companies, institutions and individuals can obtain the opportunity to invest in the projects related to IoT digital economy, and enjoy the priority to participate in the investment and cooperation of conference events, platforms, and projects;
5. The products, projects, solutions, and application services of award-winning companies/institutions and individuals will be given priority as the supplier or partner of cooperative projects of new type of IoT demonstration base project;
6. Award-winning companies, institutions and individuals can apply for priority to deliver keynote speeches or participate in high-end dialogues at the World Internet of Things Convention (annual conference) and series of summit activities;
7. Award-winning companies, institutions and individuals can enjoy the membership of the Internet of Things Innovation Alliance for free;

XII. Notes

1. The companies/institutions and individuals participating in the selection must submit the true selection materials, technologies, patents, and solutions, and shall be liable for the authenticity of the submitted materials and relevant laws and regulations;
2. The World IoT Awards Organizing Committee will conduct a qualification review of all companies, products, projects, technical achievements, programs, academic articles, etc. that declare the awards based on the application materials; the selection objects will be selected from the units or individuals that have passed the qualification review and will be based on application materials for selection;
3. The companies, projects, products, development and innovation achievements, solutions involved in the selection and the units that need to be selected for on-site inspection of experts can apply to the organizing committee, and need to bear the costs of the selection of experts and other related expenses.
4. The registered products, technologies, solutions and scientific and technological achievements must comply with relevant laws and regulations and existing standards;
5. The registered products, technologies, solutions and scientific and technological achievements have no intellectual property disputes and no infringement of right;

6. The applicant must organize the completion of the declaration form and submit the relevant declaration materials in accordance with the specific requirements of the “Registered Application Form for 2024 World IOT Awards”;
7. If false or infringing acts are found, the organizing committee will cancel the selection and award qualifications, and the registration fee will not be refunded;
8. The application materials can be downloaded from the official website of the WIOTC (www.wiotc.org).
9. After all the application materials are prepared, please name the folder and generate a compressed package and send it to the mailbox: awards@wiotc.org; if the application information is too large, you can choose to store it in a disk and send it to the organizing committee.
